THE AUTHORS affirm that this manuscript is their original work that has not been reported previously other than in abstract form, and that this work is not under consideration for publication elsewhere. This material has been approved for submission by all authors and persons cited for unpublished work have approved such citation.

COPYRIGHT ASSIGNMENT: This form must be signed by the corresponding author on behalf of all the authors. No work can be published by the Genetics Society of America unless a copyright assignment form has been received. This form should be returned to the Genetics Editorial Office. This form has no legal effect if the paper is not accepted for publication.

THE AUTHORS affirm that nothing contained in this article will constitute an infringement of any copyright and that its contents are neither libelous nor constitute an invasion of privacy. The authors agree that the Genetics Society of America may publish the article in the issue of Genetics that it deems appropriate, and hereby grants and transfers all right, title, and interest thereto, including right to claim copyright, to the Genetics Society of America.

THE AUTHORS acknowledge that publication of the submitted article constitutes the entire consideration due them for all of their rights to copyright, and further agree to hold the Genetics Society of America harmless from any breach of the aforesaid representations. For U.S. Government employees, the above assignment applies only to the extent allowable by law.
